Bhavesh Bansod | +91 9322475609 | bhaveshbansod.dev@gmail.com | [LinkedIn](#) | [Github](#)

Summary

Hands-on experience in web development, cloud computing, and blockchain-based systems, with a strong focus on building practical, real-world applications. Developed projects including a price comparison web app, a serverless AWS + GenAI application, and a decentralized certificate verification system. Actively seeking internship opportunities to apply technical skills, learn from industry exposure, and contribute to impactful solutions.

Education

- Btech CSE (Ai) | G.H Raisoni College of Engineering | Nagpur   2027 | 8.01 CGPA
- H.S.C | Kurves New Model High School & Junior College | Nagpur   2023 | 54%
- S.S.C | Saraswati Vidyalaya Shankar Nagar | Nagpur   2021 | 76%

Projects

CompareCart | Individual | 4 months   October 2024

- Problem Definition: To design a web-based system that helps users compare the prices of the same product across multiple e-commerce platforms in one place, reducing the time and effort required to find the best deal.
- Technology Stack: HTML, CSS, JavaScript
- Soft Skills: Problem-Solving, UI/UX thinking, analytical skills, attention to detail.

Decentralized Academic Certificate Verification System | Individual | 1 months   January 2026

- Problem Definition: To develop a secure and tamper-proof system for verifying academic certificates using blockchain, while ensuring privacy by avoiding storage of sensitive data on-chain.
- Technology Stack: Solidity, Blockchain, JavaScript, SHA-256 Cryptographic Hashing.
- Soft Skills: Logical thinking, system design, security awareness, problem-solving.

Cloud Fun Facts Generator – Serverless Application | Individual | 1 months   December 2025

- Problem Definition: To build a serverless cloud application that delivers dynamic content while demonstrating how multiple AWS services integrate in a real-world scenario.
- Technology Stack: AWS Lambda, Amazon API Gateway, Amazon DynamoDB, Amazon Bedrock (GenAI), JavaScript.
- Soft Skills: Cloud architecture understanding, analytical thinking, adaptability, continuous learning.

Internships

- InternPe | AI/ML | 1 months   January 2024
- CodSoft | AI | 1 months   Ongoing

Curricular & Co-curricular Activities

- Finalist in Ideathon (KIT's Innovation and Research Fundation)   Ongoing
- Participated in Sports (Chess)   Ongoing
- Participated in Elevate Hackathon   December 2023
- Participated in Speakathon   January 2024

Certifications

- IDEATHON 2025 FINALIST (KIT'S Innovation & Research Foundation)   Ongoing
- Blockchain Course Completion Certificate – Simplilearn   January 2026
- C Programming Training Certificate – Spoken Tutorial Program   January 2025
- Internship Completion Certificate – InternPe   December 2024
- Python Fundamentals Certificate – Scaler   December 2024
